

2020 NAPA VALLEY ESTATE SAUVIGNON BLANC

St. Supéry Estate Vineyards and Winery is a 100% Estate Grown, sustainably farmed winery located in the renowned Rutherford growing region in the heart of Napa Valley. Committed to producing the highest quality estate wines without compromise, we focus on sustainable winery and farming operations to protect the land and environment for future generations. Our Napa Valley Estate collection includes Sauvignon Blanc, Cabernet Sauvignon, Rosé and Moscato. These wines are balanced and showcase fruit-forward flavors.

WINEMAKER'S NOTES This refreshing Sauvignon Blanc presents with hues of light pale straw with glancing hints of green. Powerful green lime aromas and grated lime peel combine with fresh fennel, caper and grapefruit. Green lime and grapefruit continue through the flavors with a vibrant and bright citrus feel, and threads of caper and anise spearing the profile. Lemon and lime zest zing through the finish of this opulent sauvignon blanc.

VINTAGE 2020 The 2020 growing season was cool and mild for most of the spring and summer with a few heat spells in early August that accelerated ripening. On the second day of harvest, the LNU fires converged on St. Supéry's Dollarhide Ranch where the majority of our grapes are grown. Thankfully, we had harvested sauvignon blanc for this wine before the fires. As an estate brand with stringent quality standards, we made the difficult decision to not bottle any post-fire wine for 2020. As such, this is the only St. Supéry wine produced from the 2020 vintage; \$5 from each bottle sold will benefit the Napa Valley Community Disaster Relief Fund in honor of our neighbors who came to our aid to make this wine possible.

After achieving the desired flavors on the vine, the Sauvignon Blanc was harvested in the cool morning hours in an effort to preserve the delicate flavors. The fruit was received in the cellar, where the grapes were pressed to tank and immediately chilled and settled prior to fermentation. All fermentation was completed in stainless steel tanks at cool temperatures to maintain and enhance the natural flavors. The final blend was completed soon thereafter to capture the lovely fresh qualities and intensity of flavor of the Sauvignon Blanc.
